WHAT TO DO BEFORE YOU COME FOR GYNECOLOGICAL CARE

Please complete the enclosed or/online gynecological history form and bring it with you to your appointment. In order to make an accurate assessment of your health, it is necessary to ask personal and explicit questions. If you are uncomfortable with these questions, please do not feel obligated to answer. You can address them directly with your provider at your visit.

In order to get an accurate Pap smear it is important that you do a few things.

- Do not engage in intercourse without a condom for 24 hours before exam.
- If you douche, please do not do so for at least 3 days before exam.
- If you are menstruating, please reschedule your appointment UNLESS you are interested in starting oral contraceptives. In this circumstance, we will not perform the exam but it is an ideal time to start the pill.

TESTING

All testing can be charged to your student account and appears as “infirmary lab fee”.

Or, if you prefer, please let us known and we can submit it to your private/or student insurance at the time of the exam. There are numerous private insurance companies and we are not familiar with all the details of coverage. It is your responsibility to find out whether your laboratory exam is covered and whether or not the billing is sent to your parents. This may or may not be an issue for you. It is helpful if you bring a current insurance card with you to your visit. We can provide you with an itemized statement for you to file an insurance claim. Please let us know.

FEES

- Pap smear is $75.28. An additional fee applied for HPV typing if abnormalities are detected.
- Chlamydia test $34.20
- Gonorrhea test $34.20
- HIV Blood Test 10-day turn around $29.67
- Urinalysis $9.00
- Vaginal smear $5.00
- VDRL/RPR Syphilis $12.66
