Wesleyan University will determine a student's eligibility for additional loan funds based on federal, state, and institutional laws and regulations. The Financial Aid Office will maximize a student's subsidized loan eligibility before awarding an unsubsidized loan. Please note that graduate students are only eligible to borrow unsubsidized loans. Students, who request additional loan funds and have eligibility, will receive a revised financial aid award email once your request has been completed. Students should exercise caution regarding borrowing excessive amounts. All loans must be repaid. Defaulting on student loans will result in loss of eligibility for financial assistance and other penalties.
